Home Park is proud to be taking part in a ground-breaking national study looking at Safety and Security at Large Music Events.

This important project, run by a researcher from Coventry University, is exploring how safe people feel at concerts and festivals and the impact of security measures such as bag searching and sniffer dogs.

To share your thoughts, please click on the link/ scan the QR code to go to the survey - it only takes a few minutes to contribute to the safety of future events, both at Home Park and across the country.
